## Summary

---

Enthusiastic learner eager to contribute to team success through hard work, attention to detail and excellent organizational skills. Want to learn, grow and excel in Software Industry.

## Skills

---

**Languages:** Java (intermediate), HTML/CSS, JavaScript (intermediate), SQL

**Developer Tools/ IDE:** VS Code, Eclipse, Sublime Text, NetBeans, Git/GitHub

**Frameworks/Libraries:** Bootstrap, ReactJS, Swing

**Database:** MySQL, Postman

## Projects

---

### TastyTrack | [Project Link](#)

- Tech Stack used: **React** Vite, **React Router**, **React Hooks** and **HTML/CSS**
- Developed a food delivery **web application** enhancing user experience with smooth navigation, responsive design, and seamless meal ordering.
- Implemented an **ESLint configuration** for optimizing code quality by integrating plugins like React Hooks, React Refresh, and custom ESLint rules.

### Airline Booking System | [Project Link](#)

- Tech Stack used: **Java Core**, **Swing**, **MySQL** and **NetBeans**
- Designed and implemented a user-friendly interface using **Java Swing**, allowing seamless data entry and retrieval for airline management operations.
- Optimized database interactions with **MySQL**, ensuring efficient storage and retrieval of large volumes of flight and passenger records.

### Quiz App | [Project Link](#)

- Tech Stack used: **JavaScript** and **HTML/CSS**
- Integrated API to dynamically load quiz questions based on user-selected categories and difficulty, with timer, score tracking, and real-time feedback via progress bars and answer validation.
- Implemented real-time answer validation, timers, and responsive UI for a seamless user experience.

## Education

---

### I. K. Gujral Punjab Technical University

*Bachelor of Technology in Electronics and Communication Engineering, CGPA-7.48*

**Sept 2020 - July 2024**

*Kapurthala, India*

## Achievements

---

- Solved **500+ Problems** on Data Structure and Algorithms on multiple platforms.
- Semi-Finalist in **Tata Imagination Challenge 2023**, with a national ranking of 5th.
- **Data Structures in JAVA (12/2023)** : [Link](#)
- **Front End Full Stack Web Development (10/2023)** : [Link](#)
- **code360** : [Mukeshkr60](#)
- **LeetCode** : [krmukesh160](#)
- **HackerRank** : [@krmukesh160](#)
